

## Registered Nurses Working as **Certified RN-Coders** Needed **URGENTLY** by

- **Hospitals**
- **Insurance Companies**
- **Medicare**
- **Medicaid**
- **Consulting Companies**
- **Audit Companies**

**WHY?** Because the “high-school coders” (clerical staff), CANNOT correctly perform the critically important function of “coding” properly, turning medical documentation into codes for procedures, services, and diagnoses.

Even if they are trained and certified, these “high-school” non-clinical coders” **DO NOT know a diagnosis from a symptom!** They cannot differentiate manifestations from exacerbations. And, what is really a concern: they do not report co-morbidities that will enable payers to correctly pay hospitals and physicians for the proper level of care. They MISS services because they really don’t know how to read a medical chart!

**The result:** Millions and millions of dollars in incorrectly, improperly paid claims – or claims that are denied – not paid at all. So hospitals and physicians will go unpaid. Or they try to force patients to pay over and above their policy co-payments and co-insurance.

**It’s a crime!** Bad coding also leads to fraud cases against providers. The federal and state governments often have to stop the fraud by prosecuting providers who do not correct their coding. Do the Compliance Officers & CFOs GET IT?

**THE SOLUTION:** When both hospitals and insurers hire **Certified RN-Coders**, everyone will be correctly reimbursed for healthcare services. Patients will take less money out of their pockets – and Emergency Departments and hospitals will STAY OPEN.

**RNs! Start Working SMARTER, not Harder!** Get off your feet and join the thousands of RNs who have successfully trained and certified as **RN-Coders** – ONLY YOU can do this job RIGHT THE FIRST TIME. The pay is great, and there are opportunities to “write your own ticket.” How much do you want to earn? Some of what you recover?

**Nationwide 25,000 Certified RN-Coders  
are Needed NOW!**

**Don't Start Over!**
